

# **AVOID EXTRA CHARGES**

Savoy-Swords Water System, Inc. has installed a new drive-by meter reading system. This system streamlines our meter reading process with new benefits for our customers, like constant leak detection with the exact date and time of high usage. Please be aware of the location of your own meter to avoid hitting it with lawnmowers or other vehicles. There will be a charge for every broken part. We have not had a large number of incidents with our old read system, so we really do not expect things to change with this new system, but we have charged a fee in a few incidents. There is nothing to do on your part except to be aware of the location to avoid breakage.

Here is a list of items at our cost.

Meter Box lids-----	\$ 28.00
Register-----	\$165.00
Labor-----	\$ 50.00
Total-----	\$243.00

This new drive-by system will pay for itself with the reduction of meter reader charges. It will also help keep the price of water as low as possible (which is ever increasing because of the economy and regulations) and still remain in compliance with all government regulations. Please note we are doing everything we can to lower the cost of production to keep your water safe, pleasant tasting and at the lowest rate possible. Thank you for your understanding and cooperation.

Sincerely,

Savoy-Swords Water System, Inc.
